Packnet announces new line of Sentinel™ cases by Gemstar Manufacturing

EAGAN, Minn. (PRWEB) – Packnet Ltd., a leading manufacturer and supplier of industrial custom packaging solutions, is now carrying Sentinel™ cases by Gemstar Manufacturing. The nearly unbreakable customized industrial cases are injection molded and easily transition from the field to the boardroom.

The Sentinel™ case features and benefits include:

- Customization for your specific needs
- Nearly unbreakable injection molded construction
- Designed for the harshest conditions – airtight design is water and dust proof
- Finger friendly, easy-to-open latches
- Large, cushioned handles
- Molded-in padlock brackets for additional security
- The industry's best telescoping handle and wheels
- Stock sizes for quick delivery
- Lifetime guarantee

The industrial cases come in many different sizes. Custom foam inserts are available for any case and Packnet also provides engineering and manufacturing of custom water-jet and die-cut foam to fit unique needs. The foam types include: beaded and extruded polyethylene, ether and ester polyurethane, anti-static/conductive, and crosslink neoprene foams.

For more information, call Packnet at 855.814.5147/952.944.9124, or visit www.packnetltd.com.

About Packnet Ltd.

(<http://www.packnetltd.com>) Packnet Ltd. is a privately owned company headquartered in Eagan, Minnesota. Packnet specializes in custom packaging solutions. Solutions include wood crating, custom foam packaging, corrugated plastic packaging, corrugated fiberboard, custom industrial carts, and shipping cases.
