CANNON FALLS, MN, October 24, 2011 – Gemstar Manufacturing, an innovator in custom case and plastic product manufacturing has added six new sizes to its line of injection molded Sentinel™ cases.

Gemstar's Sentinel™ cases feature a design that can perform in even the harshest conditions. The cases can be customized to fit your unique needs through the use of interior foam sets or plastic inserts, personalized colors or graphics, modifications to hardware and more.

Standard features on all Sentinel™ cases include:

- Customization for your specific needs
- Nearly unbreakable injection molded construction
- Airtight, waterproof and dust proof design
- Finger friendly, easy-to-open latches
- Large, cushioned handles
- Automatic pressure equalization valve
- Molded-in padlock security brackets
- Lighter weight
- Industry's best telescoping handle and wheels (select models)
- Stock sizes for quick delivery
- Lifetime guarantee

The new sizes being introduced (interior dimensions listed):

<b>810-4</b> (8.3" x 10.1" x 4.8")	<b>810-8</b> (8.3" x 10.1" x 8.3")
<b>1116-6</b> (11.3" x 15.9" x 6.0")	<b>1116-10</b> (11.3" x 15.9" x 10.0")
<b>1420-8</b> (14.3" x 20.8" x 8.0")	<b>1622-8</b> (16.2" x 22.6" x 8.0")

An additional eight sizes are available within the Sentinel™ case line.

"Gemstar is expanding the breadth of our core brands to provide even more options for our customers. Manufacturing custom cases and plastic parts is what we do best, so it makes sense to move forward with additional Sentinel™ case sizes," says Gemstar's Vice President of Sales and Marketing, Gary Harder. "While our product offering is growing, the exceptional service we provide will remain the same. As always, Gemstar offers free design engineering, and a lifetime guarantee on all of our cases."
