

Gemstar Update

March 20, 2020

Dear Gemstar Customers,

We are all working through this uncharted territory, day-by-day. We will keep you posted on this page weekly as to what is happening with us so we can support you during this time.

Safety of our Employees and our Communities

Gemstar is here, working and ready to serve during this time. Like you, we are evaluating our health, safety and work policies continuously to ensure the safety of our employees and communities, all while maintaining a continuity of service to you.

Materials, Production Capacity and Lead Times

We have inventory of raw materials and have established alternate supply chains for other requirements of our manufacturing. We have capacity to support your customer's needs during this time and are maintaining our lead times.

Service

We are here to answer your calls and emails. We are here to quote your projects and place any orders you have. We. Are. Here. Please stop back for weekly updates, or give us a call, it'd be great to hear from you. Be safe and be well.

Thanks,

Frederick M. Oss
President
Gemini / Gemstar
